

2015 Asian Pacific American Heritage Month

Asian Pacific Islander Employee Resource Group, Center for Diversity & Inclusion,  
Department of Psychiatry and Intercultural Psychiatric Program

# Problem Gambling and Depression

Wednesday, May 13, 2015 | 11:45am | OHSU Hospital 8th Floor Auditorium

Asian Pacific Americans are three times more likely to be classified as problem gamblers. Even though the consequences of problem gambling is huge, it still is a hidden addiction among Asian Pacific Americans. This panel discussion features clinicians, residents and faculty who will share their insight about culturally sensitive mental and behavioral health services for immigrant, refugee and ethnic communities.

Everyone is invited to take part in the discussion. For accommodations, email [cdi@ohsu.edu](mailto:cdi@ohsu.edu). View the livestream at <http://bit.ly/15APIOHSU>.
