Dear Dr Mitin,

We are pleased to announce that your grant entitled “*Novel imaging of lymph nodes in patients with esophageal cancer using ferumoxytol enhanced MRI*” has been selected as a winner of the 2015 Michael J Newton Esophageal Cancer Research award. We will be able to fund up to \$15,000 in direct research expenses. We trust you will be able to start work on this project soon, and look forward to a progress report at our esophageal cancer research forum in January 2016. We understand that you might be just getting started with the research at this time, but we hope that a full report can be offered when the protocol is completed, perhaps in 2017.

With Many Kind Regards,

A handwritten signature in black ink that reads "John G. Hunter".

John G. Hunter, M.D., F.A.C.S
