

SCHOOL OF MEDICINE | GRAND ROUNDS LECTURE SERIES

By

Nima Nabavizadeh, M.D.

Assistant Professor, Program Leader for Hematologic Malignancy and Lymphoma Radiotherapy, Co-Program Leader for Gastrointestinal Radiotherapy and Medical Student Clerkship Director, Department of Radiation Medicine, Oregon Health & Science University

Wednesday, June 28, 2017

7:00 – 8:00 AM | Plaza Café A&B

Lecture Title:

“Clinical and Radiobiological Perspectives of Liver SBRT”

Objectives:

- An understanding of the epidemiology, pathogenesis and diagnostic criteria of hepatocellular carcinoma
- -An understanding of the various treatment modalities available to patients with hepatocellular carcinoma
 - -An understanding of the radiobiological mechanisms underpinning response to hypofractionated radiation therapy

The lecture can also be viewed via live stream at the following link:

<http://stream.radonc.washington.edu>

For questions please contact Yvonne White, yvw@uw.edu or call (206) 598-1492

Grand Rounds provides an excellent opportunity to learn about your colleague’s research, to listen to scholarly syntheses of advances in radiation sciences and related fields, and engage in lively question and answer discussions. This session will be video-conferenced to the SCCA room G3102 and will finish promptly at 8:00 AM. All staff and trainees are welcome.
