Policy Title: STUDENT RESIDENCY FOR TUITION PURPOSES

Effective Date: May 2, 2019

Page 1 of 9

1. **Generally**

For purposes of tuition assessment, all students seeking to enroll in OHSU academic programs shall be classified as either an Oregon resident or a non-resident by a duly authorized admissions officer or the OHSU Residency Officer. OHSU is not bound by any determination of residency for tuition purposes except by duly authorized officials established under this policy. A person meeting the Oregon resident classification requirements established under this policy will be considered an Oregon resident for tuition purposes and will therefore be charged resident tuition. A person not meeting the Oregon resident classification requirements established under this policy will be considered a non-resident for tuition purposes and will therefore be charged non-resident tuition.

In determining resident or non-resident classification for tuition purposes, the primary issue is one of intent. Intent is inferred from a person's conduct and history as they relate to the requirements of these residency policies. If a person comes to Oregon primarily for the purpose of obtaining an education, that person will be considered a non-resident for tuition purposes (except as otherwise established under this policy). It may be possible for an individual to qualify as a resident of Oregon for purposes of voting or obtaining an Oregon driver's license and not meet the OHSU Oregon residency requirements for tuition purposes established by these policies.

To maintain residency, veterans using education assistance benefits as described in this section must be continuously enrolled (other than during regularly scheduled breaks between courses or terms) at OHSU. 4. Residency Consideration Factors

- A. The following factors, although not necessarily conclusive or exclusive, have probative value in support of a claim for Oregon residency classification under 3.A. of this policy:
- 1) Be primarily engaged in activities other than those of a college student and reside in Oregon for 12 consecutive months immediately prior to beginning enrollment in an OHSU academic program or immediately prior to the beginning of the term for which a residency re-classification is sought;
 - 2) Reliance upon Oregon resources for financial support;
 - 3) Domicile in Oregon of persons legally responsible for the student;
 - 4) Acceptance of an offer of permanent employment in Oregon; and
 - 5) Ownership by the person of a permanent living quarters in Oregon.

- B. The following factors, standing alone, do not constitute sufficient evidence to effect classification as an Oregon resident for tuition purposes:
 - 1) Voting or registration to vote;
 - 2) Employment in any position normally filled by a student;
 - 3) The lease of living quarters;
 - 4) Admission to a licensed practicing profession in Oregon;
 - 5) Automobile registration;
 - 6) Public records, for example, birth and marriage records, Oregon driver's license;
 - 7) Continuous presence in Oregon during periods when not enrolled in school;
 - 8) Ownership of property in Oregon, or the payment of Oregon income or other Oregon taxes; or
 - 9) Domicile in Oregon of the student's spouse.

- C. Reliance upon non-Oregon resources for financial support is an inference of residency in another state. Similarly, indicating a state, other than Oregon, by an applicant on a national admissions application form is probative value of residency in another state.

- 5. **Maintenance of or Changes to Oregon Residency**
 - A. A person who has previously established and maintained a domicile in Oregon for at least 12 consecutive months during which time the person was not enrolled for more than eight credit hours as a college student, is not subject to the requirement of section 3.A.2.a. as long as the person has not physically resided in another state for more than 12 consecutive months since establishing and maintaining a domicile in Oregon.

 - B. Once established, classification as an Oregon resident continues so long as the student remains in continuous academic year enrollment at OHSU (other than during regularly scheduled breaks between courses or terms).

 - C. Persons meeting Oregon resident classification under section 3.B. who initially meet the requirements will maintain Covered Individual status as long as they remain continuously enrolled at OHSU (other than during regularly scheduled breaks between courses or terms).

 - D. An Oregon resident entering the armed forces retains Oregon residence classification until it is voluntarily relinquished.

 - E. An Oregon resident entering into the Peace Corps or AmeriCorps (or similar national service program), will retain Oregon resident classification as long as the

person returns to Oregon (for the purpose of maintaining a domicile in Oregon) within 12 months of leaving the service organization.

- F. An Oregon resident who leaves Oregon for continuous enrollment (other than during regularly scheduled breaks between courses or terms) at an institution outside of Oregon will retain Oregon resident classification as long as the person returns to Oregon (for the purpose of maintaining a domicile in Oregon) within 12 months of ceasing enrollment at that institution.
- G. An Oregon resident who leaves Oregon for enrollment at an institution outside of Oregon and later seeks to enroll at OHSU and does not meet the requirements under section 5.F. will have their residency classification examined and determined according to section 3 of this policy.
- H. The criteria for determining Oregon residency classification shall also be used to determine whether a person who has moved from Oregon has established a non-Oregon residence.

6. Student Rights and Responsibilities

- A. Persons meeting Oregon resident classifications may need to self-identify by notifying the Office of the Registrar no later than the first day of the academic term for which Oregon resident classification criteria are met. Once the eligible person provides notification and documentation to the Office of the Registrar, tuition will be assessed at the resident rate for subsequent terms.
- B. A person who is aggrieved by a residency classification determined by a duly authorized admissions officer may complete and submit a notarized Residence Information Affidavit to the OHSU Residency Officer, designated by the Provost, who will review the documentation and render a residency classification. The affidavit and all required supportive documents and materials must be submitted by the first day of the term in which Oregon resident status is sought.
- C. A person who is aggrieved by a residency classification decision of the OHSU Residency Officer may, within 10 business days of the date of receipt of the classification decision letter from the OHSU Residency Officer, appeal the classification in writing to the OHSU Residency Committee (ORC). An aggrieved person may supply written statements to the ORC for its consideration in reviewing the case and may also make an oral presentation to the ORC. The ORC shall review the matter and notify the student in writing of a final decision within 10 business days from the date of the ORC meeting. The decision of the ORC shall be final unless appealed to the Provost.
- D. A person who is aggrieved by a residency classification of the ORC may, within 10 business days of the date of receipt of the classification decision letter from the

ORC, appeal the ORC decision to the Provost. An appeal to the Provost shall be in writing only and may not be based on information not previously presented to the ORC. The provost shall review the matter and notify the student in writing of a final decision within 30 calendar days. The Provost's decision shall be final.

7. **OHSU Residency Committee Responsibilities**

- A. An OHSU Residency Committee is established consisting of individuals knowledgeable about this OHSU Student Residency policy and appointed by the Provost. The purpose of the ORC is to review residency classification decisions made by the OHSU Residency Officer and render a residency decision. A majority of the members of the ORC shall constitute a quorum. A majority of a quorum shall make decisions.

- B. Residency cases of unusual complexity, especially where there may be conflict of policies, may be deferred by a duly authorized admissions officer directly to the OHSU Residency Officer for decision. Residency cases of unusual complexity may also be deferred by the OHSU Residency Officer directly to the ORC for decision.
